CHAPTER ONE INTRODUCTION

1.1 Background

After the restoration of democracy in 1990, the wave of higher education spread throughout the country. Many higher educational institutions established not only in the urban areas, but also in the remote districts. To quench the thirst of higher education, different campuses were established with the collective efforts of social workers, educated intellectuals and local people. Most of the campuses were established as the community campus, and they have been providing higher education. As a result, people in the remote area have access of higher education. The rate of girls and the students from back warded communities have increased in large number.

Marsyangdi Multiple Campus (MMC) is the first and the largest community campus of Lamjung district situated at the heart of Besishahar Municipality established in 1990 A.D. During its beginning days, the campus had run Proficiency Certificate Level (PCL) in humanities and management in the morning shift supported by the premises of Janabikas Secondary School. In 1993 A.D., MMC began to run Bachelor program in humanities and management in affiliation to Tribhuvan University. In 2002 A.D. and 2003 A.D., the one-year B.Ed. and three-year B.Ed. program (respectively) were also lunched. In the course of expansion, this campus was able to come up with Master of Arts (MA in Sociology) and Masters of Education (M.Ed. in Curriculum and EPM) in 2009 A.D. Similarly, campus got affiliated for MBS program in 2019 A.D.

MMC is a community –based, not-for-profit and TU affiliated campus which is operating many Bachelors and two Master's degree program. Bachelor degree programs are Bachelor of Business studies (BBS), Bachelor of Arts (BA), Bachelor of Education (B.Ed.) and One Year B.Ed. Similarly, the master's degree programs are Masters of Arts (in Sociology) and Masters of Education (in Curriculum). Bachelor in Business Administration (BBA) is in the pipe line to be affiliated. MMC has established various faculties to manage subject-wise teaching –learning activities of the campus. Each faculty is headed by faculty head responsible to manage the workload, result of the subject and initiate necessary changes for

improvement in the faculty. MMC has three major faculties like, Faculty of Education, Faculty of Management, and Faculty of Humanities.

MMC has four distinct building blocks in the area of 17 Ropani area. Besides this, it has purchased 62 Ropani area land for its future academic plan. It has a computer lab, library, cafeteria and seminar hall along with offices of each faculty head. It has 26 teaching faculties, 7 non-teaching staff and 548 students in different programs. Teaching faculties and non-teaching staffs are recruited and selected according to the bylaw of the campus. The decision of selection committee should be approved by the campus management committee.

MMC has its own clearly defined objectives, vision, mission and strategic plan. Its main objective is to provide quality education to the students from the back-warded, disadvantaged and lower middle-class society. Its vision is preparing competent human resources for global markets.

This study traces out facts and information important to figure out the real qualities of the campus, especially in terms of its outputs which may be measured with the help of profile of the pass out students. This report has also thrown some lights on the weaknesses of the institution in the form of recommendations.

1.2 Rationale of the Study

After the restoration of democracy (1990 A.D), the number of higher education delivery institutions has been significantly growing. These institutions have been producing a large number of graduates in each year. However, very few studies have been found to investigate the graduates' position after completion of the study. In this context, as a campus preparing for QAA, MMC identified the need of this study. This study is very helpful to identify the position of graduates of MMC in one hand, and will be fruitful for the initiating changes in teaching-learning methodology, environment and curricular in the other.

1.3 Objectives of the Study

The main objective of this study is to identify the current position of the graduates of MMC after few years of completion of the study. Under the guidelines of this objective, other specific objectives of the study are:

- i. To identify the current position of graduates of MMC i.e. whether graduates are employed, self-employed or still looking for a job or enrolled for further studies.
- ii. To assess relevancy of study on jobs of graduates of MMC.
- To assess the major strengths and weaknesses of the programs and overall teaching learning environment of MMC.
- iv. To assess contribution of the program to shape knowledge, skills and attitudes of the graduates of MMC.
- v. To provide feedback for improvement of overall teaching learning environment based on MMC graduates expectations.

1.4 Institutional Arrangements of the Study

A three-member tracer study team was formed by the Campus Management Committee (CMC) meeting of 15 Bhadra, 2078 (see annex A). The committee organized meetings and decided for field visit (see annex B). Field visits were conducted with the help of teaching faculty, non-teaching staffs, campus administration and the members of tracer committee. The study report was finalized by the tracer study committee by incorporating the suggestions provided by different stakeholders.

1.5 Graduate Batch Taken for the Study

The students who passed Bachelor's degree in Education, Humanities and Management, and those who passed M.A. in sociology and M.Ed. in curriculum in 2022 from Marsyangdi Multiple Campus were under this study. Hence taken, the total number of students included in this study (n) is 35.

1.6 Methodology Used

Out of the total graduates of the year 2022 A.D., 35 graduates were selected for the purpose of the study (see annex 1.2 and 1.3). The graduates from B. Ed, B.A, BBS, M.A. and M.Ed. were taken into consideration. Of the total sampled graduates, 11 respondents were from B.Ed., 3 respondents from B.A., 12 from B.B.S., 5 from M.A. and 4 from M.Ed. The data were collected from 1st February to 15th March, 2022.

1.6.1 Data Collection Instrument: The Questionnaire

The main instrument for the survey was the questionnaire drafted by the UGC, Nepal. The questionnaire included both closed-ended and open-ended questions (see annex 6).

1.6.2 Data Collection Technique

The tracer study committee members and non-teaching staff visited the graduates to fill the questionnaires. The questionnaires were filled up after explaining the purpose of the study. For this, beside direct visit, telephone conversation and electronic tools like e-mail and messengers were used.

1.6.3 Data Entry, Processing and Analysis

Data entry and processing were completed by the professionals having sound SPPS knowledge and its application. Percentages were computed and recorded for all variables. Bar diagrams and pie charts have been used to present the data.

1.7 Scope and Limitations of the Study

This study has covered important information about graduates including their employment status, self-employment status, employment experiences in case they are engaged somewhere in others' institutions, and the higher degree they have achieved or going to achieve.

This study tried to cover all of the graduates passed out in 2022 A.D. The following are the limitation of this study:

- i. Some graduates could not respond questionnaire due to language problem as questions are in English.
- ii. Some graduates have changed cell phone number and email-id.
- iii. Due to budget constraints, field visits were made limited within Lamjung district.
- iv. Graduates studying abroad were reluctant to fill questionnaire.
- v. This study is completely descriptive. So, any significance test is not used to determine the relationship of variables.
- vi. Most of the respondents refused to provide photocopy of appointment letters and identity cards.

CHAPTER TWO

DATA PRESENTATION AND ANALYSIS

This section has been organized into five major sections. The first section presents distribution of respondents on the basis of academic programs. The second section presents the demographic characteristics of the respondents. The third section deals with the employment status of the respondents. The fourth section presents scenario of persuasion of further study of respondents. And the fifth section describes the respondents' perceived ratings on quality measures of MMC.

2.1 Distribution of Respondents

Out of total passed out graduates in the year 2022 A.D. (2079 B.S.), useable data from 35 respondents were collected. The following table shows the distribution of respondents on the basis of different academic programs.

Level	Frequency	Percent	Valid Percent	Cumulative Percent
B.Ed.	11	31.43	31.43	31.43
B.A.	3	8.57	8.57	40.0
B.B.S.	12	34.28	34.28	74.28
M.A.	5	14.29	14.29	88.57
M.Ed.	4	11.43	11.43	100
Total	35	100	100	

 Table 2.1

 Distribution of Respondents based on Academic Program

Source: Survey, 2022

Table 2.1 reveals that out of 35 respondents, maximum respondents are from B.BS i.e. 34.28 percent. Similarly, 31.43 percent are from B.Ed., 8.57 percent from B.A., 14.29 percent from and M.A., 11.43 percent from M.Ed. This pattern of respondents has been presented in the pie-chart below

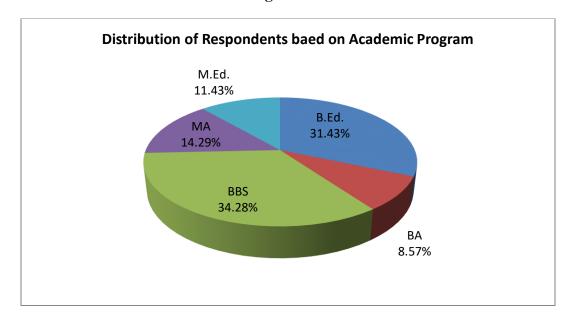

Figure: 2.1

Source: Survey, 2022

The above figure shows that most of the respondents are from BBS and the least from BA.

2.2 Demographic Information of Graduates

This section presents the demographic characteristics of the respondents on the basis of responses of the graduates. It describes caste of respondents, place of residence and gender of respondents.

2.2.1 Distribution of the Respondents in terms of Caste

The respondents were selected from different castes. The following table presents the caste of the respondents.

Table: 2	.2
----------	----

Caste	Frequency	Percent	Valid Percent	Cumulative Percent
Upper caste	17	48.57	48.57	48.57
Indigenous	16	45.72	45.72	94.29
Dalit	2	5.71	5.71	100
Total	35	100	100	

(Source: Survey, 2022)

Table 2.2 shows that 48.57 percent respondents are from upper caste (Brahmins and Chhetri), 45.72 percent from indigenous group (Gurung, Tamang, Newar, etc.) and the least respondents (5.71 percent) are Dalit. The data has also been presented in the following figure.

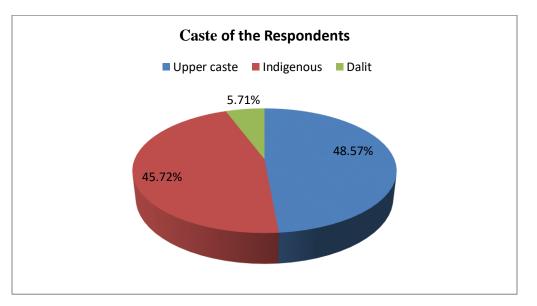

Figure: 2.2

2.2.2 Gender wise Distribution of Respondents

The following table presents gender of the respondents.

Table	2.3
-------	-----

Gender of the Respondents

Gender	Frequency	Percent	Valid Percent	Cumulative Percent
Female	23	65.71	65.71	65.71
Male	12	34.29	34.29	100
Total	35	100	100	

(Source: Survey, 2022)

The table 2.3 shows that majority of the respondents are female (65.71 percent) whereas the male respondents are only 34.29 percent.

2.3 Employment Information of Graduates

This section presents the employment status related information of graduates of MMC passed in 2016 A.D. The following table shows the current status of the respondents.

Status of employment	Frequency	Percent	Valid Percent	Cumulative Percent
Employed	27	77.14	77.14	77.14
Self-employed	3	8.57	8.57	85.71
Unemployed	5	14.29	14.29	100
Total	35	100	100	

Table: 2.4Current Status of Employment of Respondents

(Source: Survey, 2022)

Table 2.4 shows that out of total respondents, 77.14 percent are found employed, 8.57 percent are self-employed and 14.29 percent are still unemployed.

The following table shows the type of employment of the respondents:

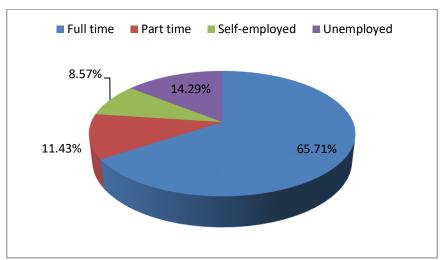

Table: 2.5

Type of Employment of the Respondents

Employment types	Frequency	Percent	Valid Percent	Cumulative Percent
Full time	23	65.71	65.71	65.71
Part time	4	11.43	11.43	77.14
Self employed	3	8.57	8.57	85.71
Not working and looking for job	5	14.29	14.29	100
Total	35	100	100	

(Source: Survey, 2022)

Figure: 2.3

Type of Employment of Respondents

The above table and figure show that out of total respondents, 65.71 percent are full time, 11.43 percent are part time, 8.57 percent are self-employed and 14.29 percent respondents are still looking for a job as they are unemployed

2.4 Graduates' Persuasion for Further Study

This section describes about the further study persuasion of graduates. It presents enrollment of graduates in higher education in different disciplines in different universities and colleges. The following table shows graduates' enrollment in different programs:

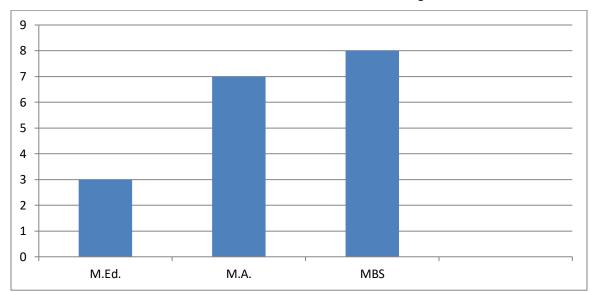

Enrollment in	Frequency	Percent	Valid Percent	Cumulative Percent
M.Ed.	3	8.57	8.57	8.57
M.A.	7	20	20	28.57
MBS	8	22.86	22.86	51.43
Total	18	51.43	51.43	

 Table: 2.6

 Graduates' Enrollment in Different Disciplines

(Source: Survey, 2022)

Figure: 2.4

Graduates' Enrollment in Different Disciplines

(Source: Survey, 2022)

From the above table and figure, it is found that out of the total respondents, only 18 graduates, i.e., 51.43 percent graduates have enrolled for further study whereas 72.41 remaining are not interested to continue their study due personal reasons. Out of total enrolled graduates, 8.57 percent enrolled in M.Ed., 20 percent in M.A. and 22.86 percent in MBS. These statistics shows that most of the graduates have enrolled in management discipline for the further study this year.

2.5 Academic Ratings towards Quality Measures of MMC

This section deals with the graduates' perceived value regarding quality measures of different dimensions of the institution. It describes the rating of graduates on different variables of the institution relating with its quality education delivery mechanism. This study incorporates eleven specific variables to evaluate the institutions strengths and weaknesses from the point of view of graduates.

2.5.1 Relevance of the program to their Professional (Job) Requirements

The following table presents the graduates' perceived ratings on relevance of the program to their professional requirements.

Satisfaction level	Frequency	Percent	Valid Percent	Cumulative Percent
				Fercent
Very low	-	-	-	-
Low	3	8.57	8.57	8.57
Medium	4	11.43	11.43	20
Satisfactory	22	62.86	62.86	82.86
Moderate satisfactory	1	2.86	2.86	85.72
Very high	0	0	0	
Total	30	85.72	85.72	

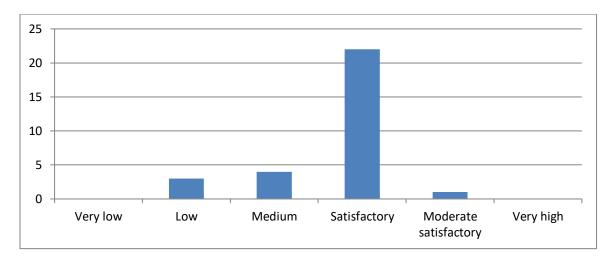

Table: 2.7Relevance of the Program to Professional Requirements

Note: Out of total respondents, 14.29 percent respondents are ignored relevancy of program to professional requirements

Source: Survey, 2022

The above table reveals that out of the total responses relating with the concerned variable, 8.57 percent respondents are low satisfied and 11.43 percent are medium satisfied with the relevancy of the program with their professional requirements. Similarly, 62.86 percent are satisfied, 2.86 percent respondents are moderately satisfied. From this analysis it can be said that majority of the respondents are satisfied with the relevancy of the program with their professional requirements. This data can also be presented in figure as below.

Relevance of Program to Professional Requirements

Source: Survey, 2022

2.5.2 Ratings based on Extra-curricular Activities

The following table and figure present the graduates' perceived ratings on extra-curricular activities organized by the institution.

Satisfaction level	Frequency	Percent	Valid Percent	Cumulative Percent
Very low	-	-	-	-
Low	4	11.43	11.43	11.43
Medium	10	28.57	28.57	40.0
Satisfactory	15	42.86	42.86	82.86
Moderate satisfactory	2	5.71	5.71	87.57
Very high	0	0	0	
Total	31	87.57	87.57	

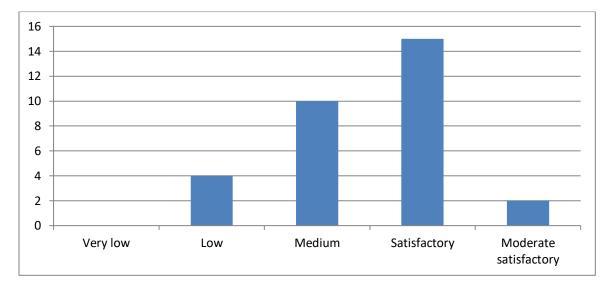

Table 2.8Ratings based on Extra-curricular Activities

Note: Out of total respondents, 11.43 percent respondents are ignored to answer.

Source: Survey, 2022

Ratings based on Extra-curricular Activities

Source: Survey, 2022

The above table and figure show that out of total responses of the variable concerned, 11.43 percent are satisfied low with extra-curricular activities carried out by the institution, 28.57 percent are satisfied medium,42.86 percent are satisfied, 5.71 percent are moderately satisfied, and no respondents is highly satisfied. Similarly, 11.43 percent respondents ignored to answer on it. The data show that the extracurricular activities conducted by the institution are satisfactory for the graduates.

2.5.3 Ratings based on Problem Solving Ability

The following table presents the graduates' perceived ratings on problem solving ability they learned from the study.

Satisfaction level	Frequency	Percent	Valid Percent	Cumulative Percent
Very low	-	-	-	-
Low	1	2.85	2.85	2.85
Medium	2	5.71	5.71	8.56
Satisfactory	19	54.29	54.29	62.85
Moderate satisfactory	11	31.44	31.44	94.29
Very high	2	5.71	5.71	100
Total	35	100	100	

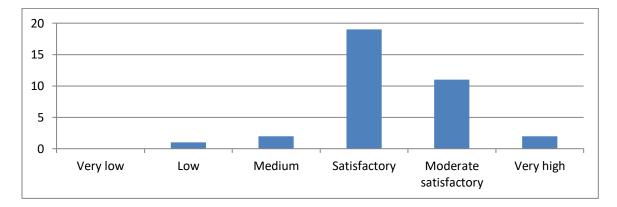

Table: 2.9Ratings based on Problem Solving Ability

Source: Survey, 2022

The above table shows that out of total respondents, 2.85 percent are satisfied low with problem solving skill they learned from the study, 5.71 percent are satisfied medium, 54.29 percent are satisfied, 31.44 percent are moderately satisfied and 5.70 percent are highly satisfied. The data show that most of the graduates have learned problem solving skill from the study. The response of the respondents on problem solving skill is shown in figure as below.

Ratings based on Problem Solving Skill

Source: Survey, 2022

2.5.4 Rating based on Work Placement/Attachment

The following table shows ratings on work placement/attachment possibility of the graduates after completion of the study.

Table: 2.10

Satisfaction level	Frequency	Percent	Valid Percent	Cumulative Percent
Very low	-	-	-	-
Low	2	5.71	5.71	5.71
Medium	4	11.43	11.43	17.14
Satisfactory	12	34.29	34.29	51.43
Moderate satisfactory	10	28.57	28.57	80.0
Very high	3	8.57	8.57	88.57
Total	31	88.57	88.57	

Ratings based on Work Placement/ Attachment

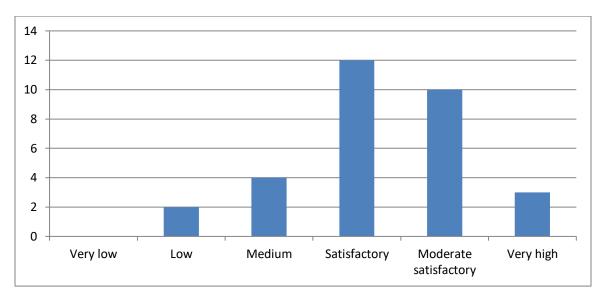

Note: Out of total respondents, 11.43 percent respondents didn't answer it.

Source: Survey, 2022

Regarding work placement/attachment, out of total respondents, 5.71 percent are satisfied low with work placement/attachment potential created by the program of study they completed, 11.43 percent are satisfied medium, 34.29 percent are satisfied, 28.57 percent are moderately satisfied, and 8.57 percent are highly satisfied. These statistics show that most of the graduates are satisfied with the ability they gained from their study necessary for their work placement/attachment.

The following figure shows ratings on work placement/attachment.

Ratings based on Work Placement/Attachment

Source: Survey, 2022

2.5.5 Rating based on Teaching/Learning Environment

The following table shows ratings on teaching/learning environment of the institution.

Table: 2.11

Ratings based	on Teaching/	Learning Environment
Raungs Dascu	Ull I caching/	Learning Environment

Satisfaction level	Frequency	Percent	Valid Percent	Cumulative Percent
Very low	-	-	-	_
Low	-	-	-	-
Medium	2	5.71	5.71	5.71
Satisfactory	10	28.57	28.57	34.28
Moderate satisfactory	15	42.86	42.86	77.14
Very high	8	22.86	22.86	100
Total	35	100	100	

Source: Survey, 2022

The above table presents the respondents' level of satisfaction in teaching/learning environment. It is found that 5.71 percent graduates are satisfied medium with the teaching/learning environment of the institution. Similarly, 28.57 percent graduates are satisfied, 42.86 percent are moderately satisfied and 22.86 percent are highly satisfied with teaching learning environment. These responses indicate that most of the graduates are satisfied with the teaching learning environment of the institution.

The following figure shows ratings on teaching/learning environment of the institution.

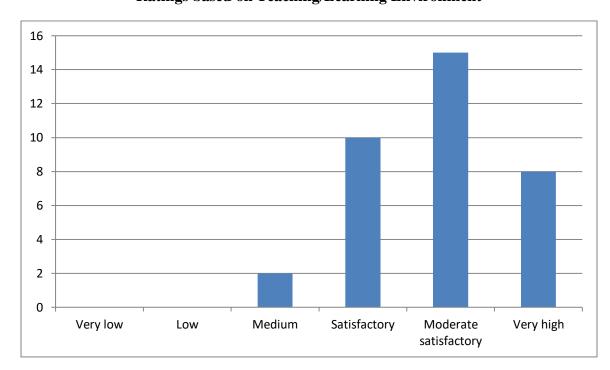

Figure: 2.9 Ratings based on Teaching/Learning Environment

2.5.6 Ratings based on Quality of Education Delivered

The following table shows ratings on quality of delivery of teaching and non-teaching staffs of the institution.

Source: Survey, 2022

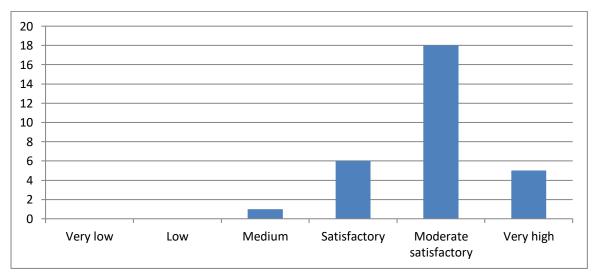

Satisfaction level	Frequency	Percent	Valid Percent	Cumulative Percent
Very low	-	-	-	-
Low	-	-	-	-
Medium	1	2.85	2.85	2.85
Satisfactory	6	17.14	17.14	19.99
Moderate satisfactory	18	51.43	51.43	71.42
Very high	5	14.29	14.29	85.71
Total	30	85.71	85.71	

Table: 2.12Ratings based on Quality of Education Delivered

Note: Out of total respondents, 14.29 percent respondents ignored to answer. Source: Survey, 2022

The above table presents the quality of education delivered in the institution. Out of the total respondents, 2.85 percent graduates are satisfied medium, 17.14 percent are satisfied, 51.43 percent are moderately satisfied, and 14.29 percent are highly satisfied. 14.29 percent graduates ignored to answer the question. The following figure shows rating on quality of delivery of teaching and non-teaching staffs.

Source: Survey, 2022

2.5.7 Rating on Teacher Student Relationship

The following table shows ratings on teacher student relationship in the institution.

Table: 2.13

Satisfaction level	Frequency	Percent	Valid Percent	Cumulative Percent
Very low	-	-	-	-
Low	-	-	-	-
Medium	1	2.85	2.85	2.85
Satisfactory	7	20.0	20.0	22.85
Moderate satisfactory	12	34.29	34.29	57.14
Very high	15	42.86	42.86	100
Total	35	100	100	

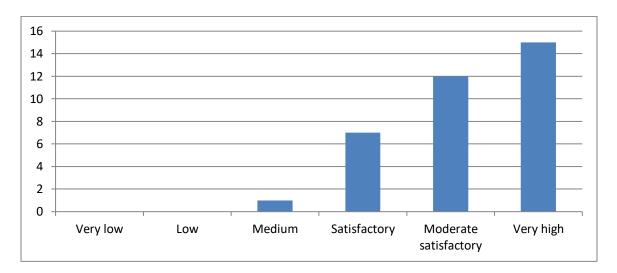

Rating on Teacher Student Relationship

Source: Survey, 2022

The above table presents the teacher students' relationship of the institution. Out of the total respondents, most of the graduates are experienced very effective teacher student relationship in the institution. Out of total responses, 2.85 percent are satisfied medium, 20 percent are satisfied, 34.29 percent are moderately satisfied, and 42.86 percent are highly satisfied with the teacher –students' relationship.

Ratings based on Teacher Student Relationship

Source: Survey, 2022

2.5.8 Rating based on Library Facility

The following table and the figure show ratings on library facility provided by the institution.

Table: 2.14

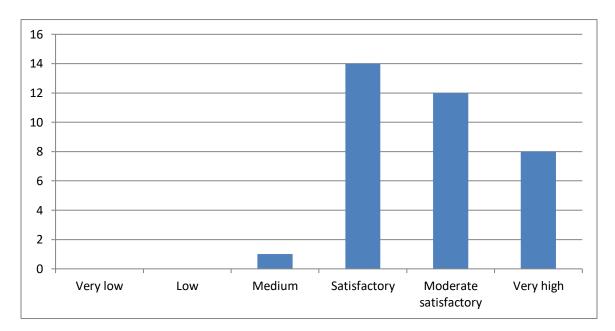

Ratings based on Library Facility

Satisfaction level	Frequency	Percent	Valid Percent	Cumulative Percent
Very low	-	-	-	-
Low	-	-	-	-
Medium	1	2.85	2.85	2.85
Satisfactory	14	40.0	40.0	42.85
Moderate satisfactory	12	34.29	34.29	77.14
Very high	8	22.86	22.86	100
Total	35	100	100	

Source: Survey, 2022

Figure: 2.12

Ratings based on Library Facility

Source: Survey, 2022

The above table and figure clearly show the respondents satisfaction level on library facility of the institution. Out of the total respondents, 2.85 percent graduates are satisfied medium, 40 percent are satisfied, 34.29 percent are moderately satisfied and 22.86 percent are highly satisfied. The data shows that majority of the graduates are satisfied with the library facility provided by the institution.

2.5.9 Rating based on Computer Lab Facility

The following table shows the rating based on computer lab facility of the institution.

Table: 2.15

Rating based on Lab Facility

Satisfaction level	Frequency	Percent	Valid Percent	Cumulative
				Percent
Very low	1	2.85	2.85	2.85
Low	2	5.71	5.71	8.56
Medium	15	42.86	42.86	51.42
Satisfactory	10	28.58	28.58	80
Moderate satisfactory	7	20.0	20.0	100
Very high	-	0	0	
Total	35	100	100	

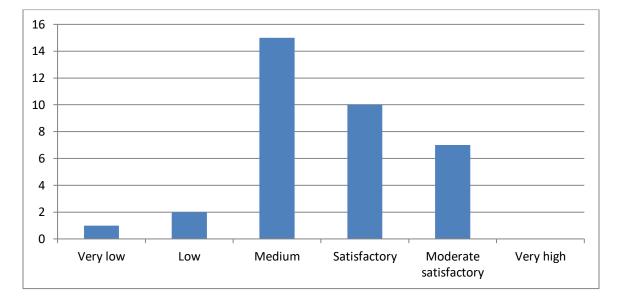

Source: Survey, 2022

The above table presents that majority of the respondents (37.9 percent) are satisfied medium with the lab facility provided by the institution. Similarly, 2.85 percent are satisfied very low, 5.71 percent are satisfied low, 42.86 percent are satisfied medium, 28.58 percent satisfied and 20 percent are moderately satisfied with the computer lab facility. No respondent is satisfied very high on it.

The following figure also illustrates the rating based on lab facility of the institution.

Rating based on Lab Facility

CHAPTER THREE

MAJOR FINDINGS

3.1 Major Findings

This study is based on descriptive research deign. It focuses on the study the graduates of 2022 A.D. including their employment status, further study and their perception and level of satisfaction on different academic programs, extracurricular activities, facilities provided by the institution, quality of education delivered, teachers-students relationship, relevance of program to the professional requirements, problem solving ability, etc. The major findings of the study are described as follows:

- 1. Majority of the graduates are from management stream as 34.29%
- Out of the total graduates, 51.43 percent are found enrolled for further study. Out of the total enrolled graduates in further study, 8.57 percent are enrolled in M.Ed. whereas 20% in MA and 22.86% are in MBS.
- 3. Out of the total respondents, 48.57 percent are found from upper caste, 45.72 percent are from indigenous group and 5.71 percent from lower caste.
- 4. Out of total respondents, 65.71 percent are female and 34.29 percent are male.
- 5. Out of total employed graduates, 65.71 percent are full time job holder whereas 11.43 percent are found as part time employees and 8.57 percent are self-employed.
- 6. Regarding job designation, most of the graduates are working in assistant level.
- 7. The graduates are found working in school, health center, NGOs and private company.
- 8. Most of the graduates (i.e. 42.86 percent of the total respondents) are satisfied with extracurricular activities, 54.29 percent are satisfied with problem solving ability, 34.29 percent are satisfied with work placement, 42.86 are moderately satisfied with teaching/learning environment, 51.43 percent are moderately satisfied with quality of education delivered, 42.87 percent are satisfied very high with teacher students relationship, 34.29 percent are satisfied with library facility, 42.86 percent are satisfied medium with the computer lab facility provided by the institution, 51.43 percent are satisfied with lab facility provided by the institution.

CHAPTER FOUR

IMPLICATIONS TO INSTITUTIONAL REFORM

4.1 Implications to Institutional Reform

As a leading community campus of Lamjung district, MMC has been striving for delivering quality education to the society. However, there requires several reforms for the institutional development of MMC. This systematic act of collecting and analyzing the situation of pass out students to their employment status to their present designation led the campus know how the programs were and what else to be reformed.

The study shows that most of the graduates have completed their degree from the discipline of education, and very low number of graduates has completed their degree from humanities and social science. Therefore; special focus should be given to improve the pass rate of the concerned department. Similarly, the number of graduates going for further study is also found very low. The campus should lunch some motivational programs to motivate them for their further study.

The result of the study shows that research skill learned from the program of study is not adequate for the graduates. So, the institution needs to initiate such teaching/learning methodologies and course that would enable students to enhance the research skill.

Innovative ideas, suggestions, and complaints are considered as an essence to transform MMC itself into a more value-centered public institution. Such valuable feedbacks, though they were to be reviewed and analyzed on subjective base, were gathered through this Tracer Study. This study, thus we think, is imperative to conduct persistently.

CHAPTER FIVE

CONCLUSION AND RECOMMENDATIONS

5.1 Conclusions

This study describes the position of graduates passed out during 2022 A.D. and their level of satisfaction about the campus. The following are the major conclusion based on the findings of the study.

- Low number of the graduates (i.e., 48.57 percent) are enrolled for further study and all of them are enrolled in TU. Out of them 22.86 percent are enrolled in management stream.
- 2. Most of respondents are from upper caste, urban area and female gender.
- 3. Most of the graduates are found (i.e. 65.71 percent) working as full-time employees whereas a few (i.e. 11.43 percent of each) are found as part time employees and self-employed.
- 4. The graduates are found working in school, health center, NGOs and private company.
- 5. Majority of the employed respondents are found very strong relationship between knowledge they enhanced from the study and their jobs.
- 6. Most of the graduates (i.e. 42.86 percent of the total respondents) are satisfied with extracurricular activities, 54.29 percent are satisfied with problem solving ability, 34.29 percent are satisfied with work placement, 42.86 are moderately satisfied with teaching/learning environment, 51.43 percent are moderately satisfied with quality of education delivered, 42.87 percent are satisfied very high with teacher students relationship, 34.29 percent are satisfied with library facility, 42.86 percent are satisfied medium with the computer lab facility provided by the institution, 51.43 percent are satisfied with lab facility provided by the institution.
- The study indicates the institutional strengths of the MMC in the areas of interdisciplinary approach of learning, and quality of delivery of teaching faculty and nonteaching staff.
- 8. Some graduates have provided suggestions to add the extracurricular activities.

5.2 Recommendations

On the basis of the conclusion drawn in this study, some of the recommendations have been forwarded to the stakeholders:

1. MMC should conduct this type of study under its full-fledged Research and Development Department. The resources to carry out this research should be allocated sufficiently. For example, a competent employee should be assigned with this rigorous job who must be responsible to collect data over the months and assist in publication.

2. The Tracer Study has given several fruitful information as feedback to the campus, especially which can be used for further improvement in the quality of teaching learning process. Therefore, it should be conducted on the regular basis and the department of Research and Development of UGC should consistently persuade to conduct this study more scientific (valid, reliable, and objective) and deeper.

3. The campus should be given priority to initiate such courses that prepare graduates to start their business.

4. The campus should initiate the non-credit vocational courses and training to produce skilled students saleable in job markets.

5. Job-placement of graduates should be facilitated through assisting them in searching and joining the jobs.

6. Necessary reforms should be initiated to attract students in streams of study like B.A., and master's degree.

7. Academic audit should be conducted to evaluate effectiveness of the institution.

8. The campus should try to conduct the census covering all the passed-out graduates to obtain the complete data and comprehensive results.
